OBJECTIVE

I am a passionate Software Developer with strong expertise in backend technologies and over two years of experience in creative projects. I am a quick learner, always curious about new technologies, and I stay updated by continuously learning new things. I'm deeply interested in AI/ML and constantly exploring its innovative possibilities and enjoy tackling complex challenges to create reliable and high-quality solutions.

EDUCATION

| | |
|--|-------------|
| Bachelor of Computer Application , Brainware University | 2022-2025 |
| Higher Secondary , Dum Dum K. K. Hindu Academy | 2020 - 2022 |
| W.B.B.S.E - West Bengal Board | |
| Secondary , Dum Dum K.K. Hindu Academy | 2019 - 2020 |
| W.B.B.S.E – West Bengal Board | |

SKILLS

| | |
|------------------------------|--|
| Programming Languages | Python, JavaScript, C |
| Backend Technologies | PHP, Django, RESTful API, Authentication |
| Frontend Technologies | HTML, CSS, Bootstrap |
| Databases | MySQL, SQL3lite |
| Tools & Platforms | Git, GitHub, Linux, MS Office |
| Tech Stack | LAMP Stack (Linux, Apache, MySQL, PHP) |
| Additional Skills | Software Testing, Team Management |

PROJECTS

Agguora - A social media

Agguora is a privacy-focused **social media platform** designed to give users control over their interactions and data. It features **customizable profiles**, **community spaces**, **dynamic threads**, and an **interactive commenting system** for real-time conversations. Built using the **LAMP stack (Linux, Apache, MySQL, PHP)**, the platform ensures strong data **encryption** and efficient backend processes. I am currently enhancing privacy settings, optimizing the backend architecture, and adding new features to improve user experience.

ELocker - A secure password manager

ELocker is a secure password manager focused on keeping your passwords safe with strong encryption and user privacy. It uses **powerful encryption** methods to make sure all saved passwords are protected from **unauthorized access**. The platform is built in **LAMP Stack** with a secure database design to store passwords safely, reducing risks and improving security. ELocker also includes solid **internet safety** measures, giving users a trusted way to manage and protect their sensitive information. Live link: <http://selocker.free.nf/?i=3>

VFLix - A Netflix Clone

A Netflix clone with a unique, responsive user interface (UI), created to showcase my front-end development skills. The goal is to deliver a smooth and engaging OTT-style browsing experience, highlighting my ability to build visually appealing and functional web interfaces. Live link: <https://vflix-web.vercel.app/>

Tech.Care – A healthcare service portal

I built an interactive healthcare portal with an easy-to-use, interactive interface, featuring diagnosis history, an organized list of diagnoses, and a chat UI to showcase connecting with healthcare professionals. This platform highlights my skills in UI design and mobile responsiveness. Using **JavaScript** and advanced **API integration**, it fetches and displays user health data in dynamic charts, giving users a clear, interactive view of their health information. ACHIVEMENTS

- **EYUVA Semi-Finalist 2024**. Our team was honored to be selected for the final round of EYUVA for our innovative project, **Smart Card**. This groundbreaking solution is designed to revolutionize the way we store and access important documents and credentials, offering unparalleled security and scalability.
- **Champions Tech-Trivia 2k23**. We secured **1st position** at Tech-Trivia 2k23 Brainware University held on September 15, 2023.

EXTRA-CURRICULAR ACTIVITIES

I am passionate about exploring new technologies and staying ahead in the tech world. I enjoy analyzing market trends, and I have a strong interest in AI and Internet privacy. Coding is both my profession and hobby. I am active on [LinkedIn](#) and [Reddit](#) where I contribute to the coding community by sharing my knowledge and actively learning from others.
